

## I Found Peace In The Valley

### Verse 1

I've always heard there's peace in the valley  
But it just didn't seem that way to me  
Many years I'd lingered in the shadows  
Where darkness spread its wings to cover me  
I was feeling hopeless and rejected  
Seemed like this is where I'd surely die  
Then the sun broke through the sadness  
Now I'm walking in the light

### Chorus

I found peace in the valley  
I found a refuge in the storm  
I found hope for the journey  
Jesus keeps me safe from harm  
So let the wind whip through the valley  
I will not retreat for I have  
Found the lily of the valley  
And the lily of the valley whispers peace to me

### Verse 2

I love looking down the mountain  
The valley is so beautiful to me  
I thank the Lord for His divine direction  
That led me to this place of victory  
When the clouds drive me from the hilltop  
To the lowest place I've ever been  
I won't have to fear or worry  
I'll find the lily once again

### Repeat chorus

The lily of the valley whispers peace to me  
Oh I've found the lily of the valley  
And the lily of the valley whispers peace to me  
The lily of the valley, the lily of the valley  
The lily of the valley whispers peace to me
