

MERRY CHRISTMAS MY LOVE

I'd trim the mountains with mistletoe and silver bows
I'd paint the moon with the purest gold
Every river and stream I would teach a melody
I'd string the stars above until their light was just enough
To wish you merry Christmas my love

I'd give you everything your heart could desire
I would solve every mystery for you
I would hold you in my arms at night
Just like a mother holds her child
To wish you merry Christmas my love

I'd decorate every heart with peace and harmony
I'd prove that love conquers everything
I would calm every fear, call the angels all near
I'd whisper line and phrase until there's nothing left to say
To wish you merry Christmas my love
