

# The Wrong Well

Susan Ashton, Michael Boggs

## Verse 1

It tastes like honey but it's poison I swear  
It feels like lightning but it'll burn the ground bare  
You can't even see the hole you're in  
But you keep sinking in

## Chorus

When you're drinking water from the wrong well  
You're dying of thirst but you can't tell  
And every sip you take leads a little closer to hell  
When you're drinking water from the wrong well

## Verse 2

It looks like life but it's stealing your soul  
And it sounds like truth but it's a lie and you know  
Then you tell yourself no harm done  
And then your heart goes numb

## Repeat chorus

There's life, so much life  
You'll never find  
Oh, you'll never find

## Repeat chorus

When you're drinking water from the wrong well  
Drinking water from the wrong well
