

Livin' In The Pages

Lee Black, Allison Speer, Kenna West

In the beginning was the Word and the word was with God
And the word was God
A sweet revelation of grace extended to us, extended to us
He's the one that I adore, I just wanna know Him more

Chorus

I wanna live in the pages, I'm gonna do what I must
To know the God of the ages and the depths of His love
Every story I've heard every line every word
Tell of His excellent greatness, I'm living in the pages

To his servant Moses he revealed himself a Holy Fire, I am that I am
Abrahams promise God provided himself a lamb, a spotless lamb
He's the same through eternity
All He was to them He is to me

Repeat chorus

In him I live and move and breathe
His word is life to me

Repeat chorus

Living in the pages
